ŽOnžRipüÍí□□k°š<Aø>Vt{í^òkû|Si 1924 marca el año en el cual los resortes  
del poder político pasan a manos de los elementos más conservadores de la  
burocracia soviética y se aísla a la Oposición de Izquierda es recién en  
1928/29 cuando esta burocracia gana la 'iniciativa' política en toda  
línea y logra establecer los términos de su dominio, para posteriormente  
liquidar a la disidencia en los Juicios de Moscú. El proceso violento de  
movimiento burocrático y represivo abierto a fines de los años '20 es  
conocido en la tradición rusa como el "gran viraje" (velikii perelom) y  
en el milieu de la soviología occidental es conocido bajo el nombre de  
"revolución desde arriba" (revolution from aboveEÚ;Y)»•;
